Bio

Main areas of expertise

Full-stack web development.

Main tech stack

- JavaScript: >4 years professional experience

- Angular: >4 years professional experience

- C#: >5 years professional experience

Jobs of interest

I'm interested in Senior developer jobs, where I work with my main technologies.

Experience

Software Developer

05/2019 - now

AXA Mansard (Lagos, Nigeria)

3 years and 6 months

1. A part of the Search Product Unit, working on delivering autocomplete and search suggestions service to over 10,000 users per second using industry-standard tools such as Stored Procedure, and SQL views with Entity framework.
2. Led the design and implementation of Savelt an investment platform (Using RESTFUL API, Token base Auth using JWT, hangfire for background services, and angular for the front end.)
3. Led in the design and implementation of the company blog. Using ASP.NET MVC with JQuery, HTML CSS and Bootstrap.
4. Worked closely with a 5-person team in bi-weekly sprints, delivering projects on time.
5. Collaborated with cross-functional development team members to analyze potential system solutions based on evolving client requirements.
6. Virtual account implementation, customers are directly charged from their virtual account number when they make a purchase on the transactional website. (Using Signal R to refresh the amount displayed on the customer dashboard whenever a payment is made to that account)

Software Developer

04/2018 - 03/2019

SDSD (Lagos, Nigeria)

11 months

1. Managed and developed solutions for the Marine Asset management module application
2. Implemented the module for tracking ships on the sea on a map using signal R to show new locations on the map by updating their coordinates whenever it changes

Software developer

01/2017 - 03/2018

Lloydant Business Ltd (Enugu, Nigeria)

1 year and 2 months

1. Designed and implemented RESTful APIs on a School Management Software (<https://abiastatepolytech-nic.edu.ng>, with a client base of 100000 students), using the Java stack, in an Agile team
2. Overhauled the reporting components of a school management software and an online admissions platform, catering for the reporting needs of over 100000 active students, by providing speed and performance optimizations and improving generation time by 70%.
3. Actively involved in the complete software development life cycle of a number of C# web and mobile applications, and several internal dashboards and monitoring applications.

.NET Developer

03/2017 - 07/2017

BisCom TDigits Limited

4 months

Education

Salem University Lokoja Nigeria

01/2011 - 08/2015

BSc, Computer Science

4 years and 7 months

Graduated with 4.00 CGPA out of 5 CGPA
